

**EU Directorate General for Research and Development –
“Combining economic, social and environmental objectives
in a European perspective”**

**Project “Multidimensional Impact of the Low-carbon European Strategy
on Energy Security” (MILESECURE)**

Partners meeting, Warszawa, 16-17 July 2013

Keynote address: **“Energy transition: from EU policies to national
implementation”**

By Pierre LACONTE, President, Foundation for the Urban Environment.

- Low energy policies vs low-carbon policies
- Transport, Energy and land use policies
- The effect of energy subsidies (fossil fuels, agro-fuels, wind energy, solar panels, etc.).
- The specific case of non-conventional gas production.
