

10th Cambridge Heritage Seminar 2009

The Future of Historic Cities: Challenges, Contradictions, Continuities

Department of Archaeology
Biffen Lecture Theatre Room
McDonald Institute for
Archeological Research

For its tenth anniversary in 2009, coinciding with the Celebration of the 800th Anniversary of the founding of the University of Cambridge, the Cambridge Heritage Seminar will focus on cultural heritage, architecture, and the built environment in the context of a rapidly globalising and modernising world.

Taking historical cities as its departure point, the seminar asks how can urban cultural landscapes be preserved and sustained, challenged as they are by development, legislation, and commodification and what are the reasons for and outcomes of such preservation?
